The Cucumber.

The cucumber is a wonderiu vegetable, and has found its way to the great American heart, the stomach being the medium, and although a great many persons suffer from cating them, yet they never appear to lose their popularity. It is a vegetable which has a terrible prejudice against some persons, and one of them when once it gets a hold on the stomach will wrestle with a man throughout an entire night, and otherwise entertain him with the most improved style of cramps. There are two kinds of cucumbers, one of them being noted for its medicinal properties and its power to pull the flesh from off the bones of a mortal.

It is a very near relative of croton oil, and when a man once takes a dose of it, he ever afterward cutertains a deep seated hatred for the whole tribe. The domestic species, however, does not act in the same way, yet its treatment of humanity is very often equally as paintul. It has long since been considered as indigestible, and when any one has a first-class cacumber nightmare, it is very apt to dastrov his faith in the usefulness of diet. The "loke" ones in a thoughtless moment dired on five very large cucumbers, and that night five fiery eyed demons jumped on him, and struck their pitch forks into his form and danced upon his breast and stomach in high glee. He tried to kick and

ery out, but it was useless; they held him like s

V190. The next morning his frightened friends found him curled up like a fish hook, speechless from pain. Those cucumbers were waging a merciless war and attacking from all points; they marched around in his stomach in platoons, regiments and brigades, and became complete masters of the field, and did not surrender an THOUGH SHAKING LIKE AN ASPEN inch until two doctors and half a drug store came to the rescue, and after a terrible struggle of twenty four hours the "loke's" knees were released from his chia. The relief from the oncumber pangs was heaven like in its awectness, and he dropped off into a pesceful sleep, and freamed that he was a big cucumber and had a scheming enemy who was always seeking his and invigorating action upon the outire system. life by devouring him alive.

He thought that one day his enemy came ong, and jarking him from the very bosom of his family, deliberately ato him, and after he reached that man's stomach, he determined to sell his life as dearly as possible. The first thing he did he threw his enemy into a spasm, and rolled him out of bed and hauled him over the floor. Then he twisted him into the shape of a gimlet, and would bim up like an applepeel, and immed his heels back of his cars and made

him groad, swear and curse. Then he pisched him into the middle of a big coovuision, and bounced him up to the ceiling, and siammed him against the wall until four men had to tie his legs and send for a doctor, and about the time be thought he had killed his enemy the "loke" awoke and shuddered to think how dreadful was a cucumber in its wrath.

The only harmless cucumber is the pickled one, which is much sought after by boarding sabaol girls and old maids, but the world is advised not to look upon the cucumber when it is green, for it burteth the stomach like unto a

PRINCE NAPOLEON AS A PRETENDER. -The present head of the Bonsparte family, Prince Jerome Napoleon, usually known as "Ploa-Pion," is a man of admitted political ability and of more asgacity than is customarily attributed to him. There is no reason to doubt the sincerity of his' theoretical republican' principles-it is only the accident of lineage that could transform bim into a half hearted impe. rialis". Now that he is free to express his maused policioal convictions in connection with the fortunes of his family it was, perhaps, a cash prices. Orders from country merchants wise thing for him to unbosom himself with promptly attended to and have our personal atthe audacious frankacss placed on record by the | ention. correspondent of an Italian newspaper. The views of the Prince upon the present republi sin leaders of Prance are curious and charac teristic. He considers Preside: 3 ry a third rate lawyer; Premier Freycioet . . ngineer but out of place in a political off ; & mhette a man of talent, but surrounded by circle of supporters. He has no fat. .. the continuance of the present regime water he thicks anything but republican, and predicts its overthrow, not by the obnservatives, but by the intransigentes. He does not admire the existing cots itution, and considers the Senate a "ridiculous sesembly" which should be reconstructed by universal indirect suffrage. His main contention at present is the revision of that constitution and the reform of the Senate. He is willing to await the expiration of the presidential term of M. Grevy and frankly announces himself a candidate for the succession, believing that when France shall have the opportunity to choose by universal suffrage be tween Grevy, Gambetta and Napoleon, she will decide for the latter. It is not probable that at the present moment this would be the case, but many things may happen in five years .-New York Herald. INTELLECT IN BRUTES,-The following story

was told to me by the mistress of the dog herself. The event occurred in a small village in Essex, some years ago:

"A little black and white King Charles, beloved by its mistress but not by its master, was one day lying on the rug in the drawing room when the master came in, having just paid his tax. He said: 'I have just paid that dog's tax;' and looking at it with a severe expression added, 'and he's not worth his tax.' The little dog immediately got up, and with a crestfallen appearance, put its tail between its legs and left the room. It was never seen afterward, nor was is ever heard of again, although icquiries were made at the time in every direc-
